Summary

I am a coding bootcamp graduate with a foundation in web development, including experience in designing and developing responsive websites and web applications using HTML, CSS, and JavaScript.

Skills

HTML * CSS * JavaScript * React * MySQL * MongoDB * Bootstrap * Experience with Git and API's

Projects

Weather Dashboard | brenda255.github.io/weather-dashboard/

- Created a dynamic weather dashboard that provides real-time and forecasted weather conditions for multiple cities.

README Generator | github.com/brenda255/readme-generator

- Developed an innovative README generator that automates the process of creating organized project guides, enhancing project clarity and efficiency.

Ollisander's Wand Store | <https://wizard-wands-production.up.railway.app/> | <https://github.com/Ksteed8859/wizard-wands> |

- Collaboratively developed "Ollisander's Wand Store," a MERN Stack app enabling users to design and purchase customized magic wands through an interactive store page.

Experience

Tenant Services Coordinator

Unico | SLC, UT

Aug 2022-

March 2023

Managed tenant services in commercial properties, overseeing inquiries, repairs, contract agreements, and compliance with property rules. Acted as a liaison between tenants and property management, providing excellent customer service and maintaining a positive tenant experience.

Financial Services Team Lead

UHEAA | SLC, UT

Oct 2015 -

July 2022

Served as a subject matter expert, provided guidance to staff, answered questions, and made suggestions for improvement. Mentored and trained employees, created rotating schedules to expand knowledge, and ensured compliance with department goals.

Education

Certificate in Full-Stack Web Development

University of Utah | SLC, UT

April 2023
